# Welcome to one of the most modern R/C-facilities in Europe!

*LRCK (Short for Lidköpings R/C Club) has managed to design a very demanding 330 meter long On-road track with both high speed, banked curves as well as tricky chicanes. The facility also incorporates a rostrum for up to 15 drivers simultaneously using the track, big grandstands above the pits, space in the technical area for up to 150 competitors as well as a restaurant, serving dinner, beer and wine.*

*The RC-complex was completed in 2010 and already there has been major races carried out i.e Large Scale 1/5 cars. In 2013 LRCK will arrange the Swedish Championship in 1/8 Scale IC Track, as well as other races.*

*After the main straight you will directly enter the three sweeping banked curves that encourages high speed and demands the best set-up of every driver.*

*When leaving the banked curves you will notice the change in elevation going upwards by 1 meter before entering the tight chicanes sloping down.*

*The pitlane is situated well besides the main track with separated entry/exit points.*

*This is the pitlane-straight as it enters the long sweeping left-hander before climbing towards the main straight.*

*Lidköping is situated in the southern part of Sweden, approximately 400 km from the city of Malmö and 150 km from Gothenburg. You can either go by ferries from Denmark to Helsingborg or from Kiel to Gothenburg, or you can travel on the highway bridge from Copenhagen to Malmö.*

*The R/C track is situated 1 km from the city center at an enormous motorsport venue where one can enjoy driving Go-cart or just watching racing with real cars and bikes. We are also able to offer camping for caravans and motor homes with big areas around the track with all the essentials such as toilets, showers and 220V power supply.*

*When not racing, you are very welcome to bring your family and visit the beautiful city of Lidköping. This Swedish small-town has a lot to offer for tourists i.e. sightseeing, bathing, fishing and shopping.*

***For more info about what LRCK has to offer please visit one of the following links or contact us directly.***

***Sincerely***

***Fredrik von Elling,***

**Chairman of Lidköpings R/C Club**
